Absent:

Others present:

I. Open with Prayer

II. The minutes of the March 26, 2013 meeting were approved.

III. What does not work in the current GE? – Finalizing the Document
The committee gave Tatiana feedback on the document. Tatiana will try to present the document to Senate at their next meeting.

IV. Potential Alignment of Institutional Learning Outcomes, GE Learning Outcomes and Institutional Goals documents
Can any alignment happen within the various documents? The committee spent some time discussing ways that the documents might be aligned to make assessment more manageable.

The final recommendation was to change the GE student learning outcomes to GE student learning goals and to change one of the institutional learning outcomes (Active Societal and Intellectual Engagement) to an institutional goal.

Respectfully submitted,

Michelle Hardley
