   i. Ray Rosentrater offered a report to the faculty. His comments included the following:
      1. Executive Senate has approved a change in how the list of diversity courses is generated and recorded. Faculty will re-submit their courses to the list, which will now reflect the type of diversity addressed in each course and the degree of emphasis diversity receives in each course.
2. Executive Senate has changed several procedures for alternative majors. These include:
   a. The sponsoring faculty member who will become the student’s major advisor must send a letter of support rather than only signing the form.
   b. The chair of each department involved must sign off on the alternative major.
   c. Students are no longer asked to discuss their personal goals in their application materials.
   d. We will provide templates for commonly recurring alternative majors. Proposals conforming to these templates can be approved quickly by the Registrar.

3. An update on the new IDEA evaluation system:
   a. Ray requested that faculty fill out faculty information forms soon, with April 15th as the absolute deadline.
   b. He requested that faculty return all unused paper evaluation forms for reuse, as we pay for the forms we order rather than what we use.

   3. The Committee has been considering whether to continue its policy of approving an open number of Mayterm off-campus programs, given current economic conditions. Five programs were approved for next Mayterm.
