Oh, right! I had almost forgotten that I'd already turned it in once. The syllabus has changed since last fall, as Telford and I further discussed what we wanted from the class.

The conjunction of RS 107 with RS 131W is a special occurrence this semester, and that has impacted this semester's RS 107 somewhat. However, I would plan to include the writing load and integrating the major elements in any RS 107 (at this point, I am the primary instructor for RS 107, though that may change as the department begins revising the curriculum).

Thanks, Ray,

Caryn
