 - 2. Introduction to the New Testament
 - 3. Introduction to Christian Doctrine

II. Common Inquiries. *Common Inquiries* courses will, collectively, seek to introduce students to a range of methodological approaches that one might employ in the quest for knowledge.

III. Common Skills Each *Common Skills* course encourages students to develop their verbal, quantitative, or physical dexterity.

A. Three (3) Writing-Intensive or Speech-Intensive Courses. Students develop their communication skills at Westmont by taking at least three courses that emphasize writing fluently or speaking clearly and effectively: Writing for the Liberal Arts.

All first-year students should take a writing-intensive course during their first year at Westmont. Students are required to take ENG 002 Composition. Exceptions:

- Students who submit a test score of 580 on the writing section of the SAT Critical Reasoning Test or a test score of 29 on the ACT English subscore are not required to take ENG-002 Composition and may fulfill the Writing for the Liberal Arts requirement by taking a writing-intensive course offered by any department.

B. Quantitative and Analytical Reasoning. Since many phenomena in our world can best be understood through quantitative and analytic methods, students should develop the ability to interpret, evaluate and communicate quantitative ideas.

C. Modern/Foreign Languages. Westmont encourages students to continue developing their fluency in a language other than their native tongue by requiring students to complete one semester of college language beyond the level of the two-year entrance requirement to the college. Alternatively, having met the entrance requirement in one language, they may take one semester of college-level study in another language. A course in any modern spoken language (e.g. Spanish, French, or German) or ancient language (e.g. Latin, Greek or Hebrew) is accepted as fulfilling this requirement. (American Sign Language does not meet this requirement.) Students are exempt from this requirement if they pass a proctored examination demonstrating the equivalent of three semesters of college language study or present evidence of a primary language other than English to the Student Records Office.

D. Physical Education. The physical education program is designed to provide instruction and exposure to fitness, skill-based and leisure activities. All students are required to take Fitness for Life and three 1-unit physical activity courses. No more than one PEA course may be taken per semester. A wellness-based foundation is laid in Fitness for Life, with the additional three activity courses providing reinforcement for a lifetime of physical activity.

IV. Competent and Compassionate Action The expectation that students will put their education into action. May be fulfilled in a variety of ways, many of which may be part of the student's major. Students are encouraged to complete these requirements at Westmont. In some cases a transfer course may be approved to satisfy this requirement.
