Describe the nature of your project (Target population, number of students involved, length of project, etc).

The Lunar New Year celebration is a huge event for many Asian cultures, so the target population is the Asian students, but this event is annually the largest ASA event that welcomes all students to share in the experience. The estimated number of students attending is 50-70 students. The time will be from 6-8pm.

What do you hope to achieve with this project?

I hope to provide a space to celebrate and learn about an important Asian celebration. This event will allow those who traditionally have celebrated it in their homes to enjoy the holiday and those who haven't to celebrate with us with a greater understanding of what it is.
