Road conditions, traffic management, and landmarks are constantly changing. You may encounter new stopsigns, stoplights, roads, buildings, construction detours, recently paved streets, and other variations from what you see here. **Please** help us make things better next year by returning this page to Troy with changes, errors or hazards noted.

To get oriented, read/listen/watch the entire sequence (plus the shaded boxes above/below) before you depart. It helps a lot!

| A   | Uphill & left turn towards town | 9    | at entrance to RAV | 9.4 mi   | 0    | Push play when you reach the outskirts of town | - From wherever you parked on the Agua Viva campus, head back up the hill and out thru the main gate.  
- On your way out the gate, just before you get onto the highway, set your trip odometer to zero. Enjoy the ten-mile journey down the mountain.  
- Remember that the o'clock directions you may get later assume that noon is straight ahead of you, 9 o'clock is a right-angle left and 3 o'clock is a right-angle right turn. Thus a 2 o'clock turn is in between, more toward 3 than noon, and so on.  
- As you find yourself approaching the outskirts of town, push Play again for your next direction. In the meantime, push Pause. ✦ |
| B   | Straight  | 12   | Carretera Federal 3 | 1 mi     | 10.4 | Push play when you reach the second stoplight since leaving RAV | - About a mile before the second stoplight you’ll start seeing the outskirts of the city. At the second stoplight after leaving Agua Viva, you’ll be going straight on thru.  
- As you find yourself approaching that second stoplight, push Play again for your next direction. In the meantime, push Pause. ✦ |
| C   | Straight  | 12   | Carretera Federal 3 | 1.0 mi   | 11.4 | Push play when you arrive at the Pemex after the third stoplight | - Proceed straight thru the second stoplight and continue one mile further. You’ll go thru two stop signs and a stoplight. At the first stop sign after the 3rd stoplight since leaving RAV, look for a Pemex on your right and a side street that veers to the right just before it. You will follow this street at the 2:00 angle.  
- As you find yourself approaching the Pemex on your right, push Play again for your next direction. In the meantime, push Pause. ✦ |
| D   | Right     | 2    | Cortez         | 1.5 mi   | 12.9 | Push play when you arrive at the gold statue | - Veer 2:00 right. Follow that street, thus bypassing the Pemex which will now be on your left, until you meet up with the main street onto which this side street flows. That’s Cortez. Stay on Cortez for a mile and a half until you see the gold statue in the middle of the six-lane main thoroughfare called Reforma. Be in the rightmost lane, or the one next to it at the stoplight.  
- As you find yourself approaching the gold statue, push Play again for your next direction. In the meantime, push Pause. ✦ |
| E   | Slight Right | 2    | Calle Juarez   | 0.8 mi   | 13.7 | Push play when you arrive at Blancarte | - At the stoplight with the gold statue, from the rightmost lane or the one next to it, bear 2:00 as you proceed thru the intersection, bypassing the KFC, which will be on your right. That puts you onto Calle Juarez, another main street. Follow it for 0.8 miles, watching at about 0.6 miles for it to cross a bridge. You’ll look for Blancarte Street, the second right past the river.  
- As you find yourself at Blancarte, push Play again for your next direction. In the meantime, push Pause. ✦ |
| F   | Right     | 3    | Blancarte     | 1b       | 13.7 | - Turn right on Blancarte street and go one block. The church is on the left near the corner. | - Congratulations! You’ve arrived at your destination. |
| G   | Straight  | 12   | Blancarte     |          |      | -               |                                                                                                                                                                                                            |

Google time estimate: 23 minutes

**Dial** = The clock-dial directions assume noon is straight ahead of you, 3 o’clock is a normal right turn, and 9 o’clock is a normal left. Thus a 2 o’clock turn (aka 2:00 in text) is between noon and 3, closer to 3—and so on.

**Distance** = mi/le; b=lock; y=ard

**Odom** = If you a) zero your trip meter; b) proceed without detour; and c) have an accurate odometer, you can gauge progress in the Odom column. (Due to rounding error, cumulative total Distance may not match Odom.)
Team Leaders: Daniel Namkung, Michelle MacDonald

RAVrav = Rancho Agua Viva routes/audio/video

Mapgrid: E6

Dial = The clock-dial directions assume noon is straight ahead of you, 3 o’clock is a normal right turn, and 9 o’clock is a normal left. Thus a 2 o’clock turn (aka 2:00 in text) is between noon and 3, closer to 3—and so on.

Distance = mi; b-lock; y-ard

Odom = If you a) zero your trip meter; b) proceed without detour; and c) have an accurate odometer, you can gauge progress in the Odom column. (Due to rounding error, cumulative total Distance may not match Odom.)
