fax: (805)-565-7066
e-mail: scontakes@westmont.edu

Experience

Faculty member, Westmont College, 2007-present.

Associate Professor (2015-present); Assistant Professor (2007-2015)

- *Teaching: Teaching:* Developed and taught numerous courses successfully as evidenced by exemplary ACS standard exam course averages) and positive student evaluations of instructor teaching effectiveness:
 - *Courses taught:*
 - CHM 4 Chemistry, Culture, & Society
 - CHM 5 General Chemistry I
 - CHM 6 General Chemistry II
 - CHM 104 Advanced Inorganic Chemistry
 - CHM 113 (BIO 113) Biochemistry
 - CHM 113L (BIO 113L) Biochemistry Lab
 - CHM 121 Introductory Analytical Chemistry
 - CHM 121L Introductory Analytical Chemistry Lab
 - CHM 122 Advanced Analytical Chemistry with lab
 - CHM 130 (PHY 160) Physical Chemistry I (Classical & Statistical Thermodynamics)
 - CHM 131 Physical Chemistry I Lab
 - CHM 133 Physical Chemistry II Lab
 - CHM 195 Senior Seminar
 - *Course development:* Updated the Physical Chemistry II, Introductory analytical chemistry, and Biochemistry labs to better reflect current trends in these fields. Restructured the Chemistry, Culture, and Society & Senior Seminar Courses to better reflect the current state of Science & Religion and History & Philosophy of Science scholarship. Added significant instrumental methods, writing, and oral presentation instruction to the analytical & physical chemistry courses. Currently developing labs for materials chemistry and nanotechnology instruction.
- *Scientific Scholarship:* Conducted research on the design and preparation of small-molecule, nanomolecular, and protein-based catalysts.
 - Published three papers & obtained one external grant, an additional patent and four manuscripts are in the pipeline, two of which will not require additional laboratory work
 - Supervised 40 research students, including three major honors theses & 21 unique summer researchers
 - Set-up a biochemical research facility and expanded departmental small-molecule synthesis and characterization capabilities. This involved acquiring and commissioning thirteen new laboratory instruments and other major pieces of equipment including a FPLC, glove box, electrochemical analyzer, & solvent purification system and providing design and consultancy support for the remodel of our computer room into a biochemical research lab.
 - Conducted pedagogical research leading to the development of one paper, five new labs & the adaptation of twenty experiments used elsewhere for use with Westmont courses & facilities
- *Science & Religion and Humanities Scholarship:* Developed methods to systematically integrate contemporary science & religion scholarship in the chemistry curriculum.
 - Published four papers, two magazine articles, ten dictionary entries, and a book review, with an additional book chapter in the final stages of editing.
 - Delivered eighteen conference, four institutional, and four public talks
 - Developed a 2000+ item "Chemistry & Religion" online Zotero bibliographic database
 - Organized and chaired two American Scientific Affiliation national conference sessions
 - Co-organized the 2013 - 2017 Southern California Christians in Science Winter Conferences
 - Participant, Bridging the Two Cultures of Science and the Humanities Oxford Interdisciplinary Seminar in Science and Religion, 2015-2016
 - Co-wrote a successful International Society for Science and Religion Library grant
 - Provided materials and consultant services to CCCU chemistry faculty

- **Service:** Served the department & college in several capacities, most notably:
 - Institutional
 - Chair, Quantitative Literacy ILO assessment team, 2015-16
 - Chair, Professional Development committee, 2011-12
 - Secretary, Professional Development committee, 2010 – 11
 - Member, Faculty Personnel Committee, 2016-present
 - Member, General Education Committee, 2014-16
 - Member, Information Literacy ILO Assessment Team, 2014-15
 - Member, Critical Thinking Assessment Team, 2013-2014
 - Member, Diversity committee, 2012-13
 - Member, Economics & Business search committee, 2012 – 14
 - Member, David K. Winter Servant Leadership Awards Selection Committee, 2013
 - Member, Library search committee, 2012
 - Member, Focus day planning committee, 2012
 - Member, HHMI proposal development and writing committee, 2011
 - Member, Chemistry department search committees, 2008, 2009, 2010-11, and 2013-15.
 - Member, Computer Technology Advisory committee, 2008 – 2010
 - Departmental:
 - Chair, summer 2017-present.
 - Helped acquire, maintain, & repair departmental instrumentation and other equipment
 - Invited speakers for departmental and campus-wide symposia
 - Developed promotional materials and assisted with recruitment efforts
 - Served as advisor to the Westmont Chemistry Club, fall 2007 – present
 - Hosted Friday evening dinners for student researchers during the 2008 - 2017 summer research seasons
 - Co-organized departmental chapels, 2007-2010
 - Ad Hoc
 - Advisor, Westmont College Chemistry Club 2007-present.
 - Advisor, Westmont College Science & Religion Club, 2015-present.
 - Panelist, Prospective student Preview Days Panel, 2016
 - Panelist, Faith Journeys and Turning Points, Westmont College First Year Retreat, 2012
 - Panelist, Teaching at Westmont session for new faculty orientation, 2011

Visitor, California Institute of Technology, August 2006-2009: Undertook collaborative research in protein engineering. Past duties also included consulting on the development of molecular wires for probing the active sites of the enzymes methyl-CoM reductase, cytochrome P450BM3, and lipoygenases.

Assistant Professor of Chemistry, Azusa Pacific University, August 2006-May 2007:

Courses taught:

- | | |
|------------------------------|-----------------------|
| ○ Introductory chemistry | ○ Biochemistry I |
| ○ Organic and Biochemistry | ○ Biochemistry I lab |
| ○ Organic & Biochemistry lab | ○ Biochemistry II |
| | ○ Biochemistry II lab |

Consultant, OhmX Corporation, June 2005- May 2007: Provided technical expertise related to the development of protein biosensors.

Postdoctoral Scholar, California Institute of Technology, June 2001- August, 2006:

Bioinorganic and biophysical chemistry research under Prof. Harry B. Gray

- Designed & Prepared Ru and Re diimine molecular wires that reversibly and selectively bind copper amine oxidases and cytochrome P450cam
- Photogenerated topaquinone radicals in copper amine oxidase using Re diimine molecular wires
- Three publications and five presentations at professional meetings
- Mentored three undergraduate researchers

Consultant, Jet Propulsion Laboratory, July 2005 – June 2006: Advised Dr. Adrian Ponce and his group on the design of synthetic receptor sites for spore detection.

Research Mentor, California Institute of Technology Freshman Summer Institute Program, August - September, 2005: Taught two incoming Caltech freshmen research methods & techniques.

Research Assistant, University of Illinois. January 1996 – May 2001:

Conducted research in synthetic organometallic chemistry under Prof. T. B. Rauchfuss:

- Prepared four new classes of organometallic cyanide clusters and three new coordination networks
- Characterized the structures of numerous organometallic cyanide clusters and polymers using X-ray crystallography, NMR, IR, and MS
- Synthesized & characterized the 1st model complex for the all-Fe hydrogenase active site cofactor
- Prepared and characterized π -complexes of Cp*Ru²⁺ with phthalocyanines
- Eleven publications and six presentations at professional meetings

Teaching Assistant, University of Illinois. August 1996 - May 1997, January - December 1999:

- Teaching assistant, *General Chemistry*. Lectured, held review sessions, wrote & gave quizzes.
- Teaching assistant, *Industrial Inorganic Chemistry*. Provided organizational & administrative assistance.
- Head Teaching Assistant, *General Chemistry Lab*. Prepared course materials, wrote exams, and tested experiments.

Summer Researcher, Sandia National Labs. May - August 1995, May - August 1994:

Conducted original research in sol-gel science under Dr. C.J. Brinker:

- Published two articles on the effect of preparation conditions on the properties of sol-gel derived thin films, powders, gels, and membranes
- Developed a molecular imprinting method for controlling pore sizes in silica thin films
- Measured stresses in dip-coated thin films as a function of solvent partial pressure during drying

Education

Postdoctoral: California Institute of Technology, June 2001- August 2007.

Advisor: Harry B. Gray

Ph.D.: University of Illinois at Urbana-Champaign, October 2001.

Thesis Title: Synthesis and Characterization of Novel Organometallic Phthalocyanines and Cyanometallates

Thesis Advisor: Thomas B. Rauchfuss

GPA: 4.00/4.00

B.S. Chemistry: Lehigh University, May, 1995

B.S. Chemical Engineering: Lehigh University, May, 1995

Both with Highest Honors. GPA: 3.99/4.00

Technical Skills

Chemical and Biochemical Synthesis

- Expert in synthesis and manipulation of air sensitive compounds using Schlenk manifolds, glove boxes, and high vacuum systems.
- Proficient in the maintenance and use of solvent purification systems
- Proficient at performing chromatographic separations by flash chromatography, HPLC, and FPLC
- Proficient at engineering, expressing, and purifying proteins

Spectroscopy and Crystallography

- Proficient with the use and modification of a pulsed laser system for nanosecond time-resolved emission and absorption spectroscopy
- Proficient in the use of *SHELX* and *PLATON* for the solution and refinement of crystallographic data

- Proficient with the use and basic maintenance of instruments for NMR, IR, UV-vis, Fluorimetry, ESI-MS, and AA spectroscopy
- Proficient in the use of and basic maintenance of HPLC, GC, and GC-MS instruments
- Experienced in the use of CD, EPR, XPS, SEM, and TGA analysis techniques

Selected Software

- General: MS Word, Excel, and PowerPoint; EndNote; Photoshop, Acrobat Professional
- Chemical: ChemDraw, SciFinder Scholar; HyperChem, Chem3D Ultra; CambridgeSoft E-notebook, ACD Labs NMR Processor; ShelX; Oscale X, Olex2; Mercury

Professional Affiliations

American Chemical Society
 American Scientific Affiliation
 Tau Beta Pi
 Sigma Xi
 Omicron Delta Kappa

Selected Honors

Fellow of the American Scientific Affiliation, 2017
 Bruce and Adaline Bare Outstanding Teacher Award in Natural and Behavioral Sciences, 2013
 National Institutes of Health Postdoctoral Fellow, 2002 – 2004
 T.S. Piper Award in Inorganic Chemistry, 2000
 National Science Foundation Predoctoral Fellow, 1995 – 1998
 Barry Goldwater Scholar, 1994 -1995

Recent Professional Service Activities

Professional review work: 2015-present: Editorial board member for *Perspectives on Science and Christian Faith*. 2007-present: Ad hoc reviewer for Petroleum Research Fund, National Science Foundation, National Center for Case Study Teaching in Science, Oxford University Press, the *Journal of Chemical Education*, Hyle, Pearson Higher Education, Holt-Rinehart, and Winston.

American Chemical Society Los Padres Local Section Service, 2007-present: National Chemistry Olympiad Coordinator, 2011-present, Executive committee member, 2011-2013; Education committee chair, 2012. National Chemistry week chair; 2010-2011, 2013; Earth day coordinator, 2011-2012; National Chemistry Week outreach event leader, 2007-9, 2012.

American Scientific Affiliation, 2009-present: Helped organize and moderate several sessions for the 2012 and 2013 national meeting technical programs. Served the *Southern California Christians in Science Local Section* in several leadership capacities, including secretary (2009-present) and webmaster (2009-2010). Helped organize local meetings in Southern California and the Santa Barbara area, most notably the 2013 - 2017 Winter Day Conferences at which I also served as program chair (2013-16) or co-chair (2017).

Summer Undergraduate Research Fellow Mentor, 2002-2005: Directed three undergraduate student research projects. This involved mentoring students in project design, proposal writing, lab techniques, data analysis, and technical communication.

2. "The Spiritual Discipline of Service and what it Means to Me" Armington News, September 2012.

Science and Religion Public Talks and Presentations

1. "Playing with the Synthetic and the Natural: Towards a Christian Perspective on the use of Synthetic Chemicals in Industrialized Society" Trinity Lutheran Church, Santa Barbara, CA, April 24, 2016.
2. "What Can We Learn from Atomic Theory, the Faith-Science Controversy that Never Was" Southern California Christians in Science meeting, North Hollywood, March, 24, 2012.
3. Panelist, *Faraday Institute for Science and Religion Test of Faith Tour Event*, North Hollywood, CA, October 15, 2011.
4. "In What Sense Design? Biochemistry, Metabolism, and Life's Origin" Azusa Pacific University Common Day of Learning, 2007.

Institutional Talks and Presentations

1. Contakes, S. M. 2016. "Why No Chemical Missions? The Chemical Enterprise and Christian Calling" Chemistry Department Chapel, Westmont College, November 2, 2016.
2. Taylor, Jim; Contakes, Stephen; VanderMey, Randy; Wilson, Jane "Brown Bag Conversation on Critical Thinking" Westmont College, February 24, 2015.
3. Taylor, Jim; VanderMey, Randy; Contakes, Stephen; Kelly, Savannah; Nazarenko, Tatiana "Approaches to Rigor and Relevance in Teaching and Learning Higher Order Thinking" Westmont College Faculty Forum, February 15, 2013.
4. Panelist, "Panel Review of Michael Ruse's *Can a Darwinian Be a Christian?* and Denis Alexander's *Creation or Evolution: Do we have to Choose?*" Westmont College, January 11, 2013.
5. Panelist, *Hosting Students in Our Homes*, Westmont College Staff Forum, November 29, 2012.
6. Faculty Devotional, "Messages from Missionaries for the Middle of the Semester", Westmont College Faculty Meeting, October 2012.
7. Panelist, *Faith Journeys and Turning Points*, Westmont College First Year Retreat, September 2012.
8. Panelist, Teaching at Westmont session for new faculty orientation, August 2011.

Workshops

1. Taylor, Jim; VanderMey, Randy; Contakes, Stephen; Kelly, Savannah; Nazarenko, Tatiana "Rigor and Relevance in Teaching and Learning Higher Order Thinking" Westmont College, March 1, 2012.

Funded Grants and Program Application Acceptances

1. Oxford Interdisciplinary Seminars in Science and Religion (2015-2016) "Atoms, Alchemy, and the Chemical Arts in Christian Thought and Practice: Preliminary Inquiries Relevant to the Development of a Framework for Thinking About Chemistry and the Christian Faith" Oxford-Templeton Bridging the Two Cultures of Science and the Humanities Program 2015-16.
2. ISSR library grant (2011). This grant, co-written with Westmont Librarian Claudia Scott, provided the Westmont library with ~250 volumes in the field of science and religion.

3. ACS-Petroleum Research Fund, Type G Starter Grant (2008-2012) "Bio-inspired Two-site Bimetallic Hydrocarbon Activation Catalysts" ACS-PRF 47420-GB3, \$50,000.

Non-presenting Conference, Continuing Education, and Planning Workshop Attendance

1. CcWCS workshop on Materials Chemistry and Nanotechnology, Southwestern College, San Diego, CA, June 25-30, 2017.
2. CCCU "Bridging the Two Cultures of Science and Religion" Writing Retreat, Cedar Springs Christian Retreat Center, Sumas, WA, June 20-24, 2017.
3. Liberal Arts for a Fragile Planet, Fifteenth Annual Conversation on the Liberal Arts, Gaede Institute, Westmont College, Santa Barbara, CA, March 23-25, 2017.
4. SCIO Visiting Scholar in Science and Religion, Bridging the Two Cultures of Science and the Humanities, Oxford Interdisciplinary Seminar in Science and Religion, 2015-2016.
5. MOOCing the Liberal Arts? Technology and Relationship in Liberal Arts Education, Thirteenth Annual Conversation on the Liberal Arts, Gaede Institute, Westmont College, Santa Barbara, CA, February 13-15, 2014.
6. CAT (Critical Thinking Assessment Test) "Train the Trainer" Workshop, Washington, DC, November 18-19, 2013.
7. From Christian Scholarship to Christian Pedagogy: A New Conversation in Christian Higher Education, Westmont College May Faculty Faith-Learning Workshop with James K. Smith, May 20-24, 2013.
8. Collegiate Learning Assessment Performance *task* Academy, San Francisco, CA, October 6-7, 2012.
9. Writing Across the Curriculum Workshops with Sarah Skripsky and Cheri Larsen-Hoeckley, Westmont College, Santa Barbara, CA, February 4 and June 13-14, 2012.
10. The Old Testament, Westmont College May Faculty Faith-Learning Workshop with Tremper Longman III, Westmont College, Santa Barbara, CA, May 21-25, 2012.
11. The Gendered Liberal Arts? Femininity, Masculinity, and the Future of Education. Eleventh Annual Conversation on the Liberal Arts, Gaede Institute, Westmont College, Santa Barbara, CA, February 24-25, 2012.
12. What Works in STEM Education? A Southern California Project Kaleidoscope (PKAL) Regional Network Conference, Pomona College, Claremont, CA, January 21, 2012.
13. The Art of Managing Difficult Conversations in the Classroom Workshop with Hilda Hernández-Gravelle, Westmont College, Santa Barbara, CA, November 12, 2011.
14. Responding to Student Writing Workshop with Sarah Skripsky and Cheri-Larsen Hoeckley, Westmont College, Santa Barbara, CA, November 2, 2011.
15. Science and Scripture: Interpreting the Information, American Scientific Affiliation Workshop with John Walton, Kevin Van Hoozer, Del Ratsch, and Denis Lamoureux, Naperville, IL, July 29-August 1, 2011.
16. Westmont College May Faculty Faith-Learning Workshop with Dallas Willard, Westmont College, Santa Barbara, CA, May 23-27, 2011.
17. Council on Undergraduate Research (CUR) Dialogues Conference, Washington, DC, February 24-26, 2011.
18. The New Testament for Today's Christian Educator, Westmont College May Faculty Faith-Learning Workshop with Robert Gundry, Westmont College, Santa Barbara, CA, May 17-21, 2010.

19. The Liberal Education of Students of Faith. Ninth Annual Conversation on the Liberal Arts, Gaede Institute, Westmont College, Santa Barbara, CA, February 26-27, 2010.
20. Theological Hermeneutics in the Disciplines, Westmont College May Faculty Faith-Learning Workshop with Kevin Van Hoozer, Westmont College, Santa Barbara, CA, May 14-20, 2008.
