

## Current Policy

### C. ACADEMIC MINOR

Minor programs will consist of no fewer than 20 semester units and no more than 25 semester units of specified courses, including prerequisites. Although Westmont does not require a minor for the B.A., some of the academic departments at Westmont list official minors. Official minors will be listed on transcripts providing the student has completed an application for degree for each minor.

Note: Four units of upper-division credit earned in a major may be applied to meeting the requirements of a minor. Students pursuing a French or Spanish major and the Global Studies minor are exempted from this restriction. Students pursuing the Liberal Studies major and a minor in their concentration area are exempted from this restriction. No upper-division credits may be shared by two minors. (There is no limitation on the overlap of units between two majors.)

## Proposed Policy

### C. ACADEMIC MINOR

Minor programs will consist of no fewer than 20 semester units and no more than 25 semester units of specified courses, including prerequisites. Although Westmont does not require a minor for the Bachelor's degree~~B.A.~~, some of the academic departments at Westmont list official minors. Official minors will be listed on transcripts providing the student has completed an application for degree for each minor.

Note: Four units of upper-division credit earned in a major may be applied to meeting the requirements of a minor. Students pursuing an Interdisciplinary minor are exempt from this restriction.~~Students pursuing a French or Spanish major and the Global Studies minor are exempted from this restriction.~~ Students pursuing the Liberal Studies major and a minor in their concentration area are exempted from this restriction. Students pursuing a major with a foreign language requirement (e.g. History, Political Science) and a minor in the same language are exempted from this restriction. No upper-division credits may be shared by two minors. (There is no limitation on the overlap of units between two majors.)
