

3. September/October discussion groups

- **Mission and culture. (Can the nursing program fit and build on our Christian liberal arts culture and how nursing might enrich undergraduate programs, and vice versa?)**
- **The nursing curriculum itself. (How the Christian perspective and liberal arts values are embedded in the nursing curriculum?)**
- **GE curriculum and program pre-reqs. (What do we ensure that non-Westmont students enter the program meet our expectations for a Westmont degree? What should the pre-reqs be and how do they impact on other majors?)**
