

## **Senate Proposal (very rough)**

In response to Patti Hunter's request for guidelines to allocate spots on Westmont off-campus affiliate programs, the Senate recommends the following

Established majors whose program of study require an off-campus program experience should be given priority, even before their senior year if they would benefit from completing this requirement earlier, including during their sophomore year if they plan on graduating in 3 years. This includes:

- Modern Languages: English and French Majors
- History: Majors in the International Track

Majors whose course of study relies of off-campus affiliate programs because they provide courses not offered on campus. This includes:

- Art Majors (Orvieto, Aix-en-Provence)
- Biology Majors
- Environmental Studies Majors
