

# Environmental Studies

## Engage pressing environmental issues and practice stewardship of the earth.

Widespread environmental problems rank among the most pressing global issues of our time, and their scientific, social and moral dimensions require a sophisticated, informed and compassionate response. The Environmental Studies minor cultivates a deep understanding of human connections to the natural world so you can analyze and debate complex environmental problems and devise constructive, imaginative solutions. You'll discover how to practice stewardship of the earth in the context of Christian theology and social and environmental ethics. You'll also develop the knowledge and skills to engage contemporary environmental issues such as biodiversity loss, pollution, resource depletion, climate change, renewable energy, sustainable agriculture and sustainable development from local to global scales.

## SELECTED COURSES

- Introduction to Environmental Studies
- Electives in Natural Sciences, Social Sciences, and Humanities, such as:
  - » Land into Landscape
  - » Environmental Politics
  - » Food Systems

Courses can include up to 4 units of internships or research.

Several courses satisfy GE requirements.

## INTERNSHIPS

- Apael Sciences
- Channel Islands Restoration
- Deckers
- ECOFaith of Santa Barbara
- Gaviota Coast Conservancy
- Santa Barbara Botanic Gardens
- Santa Barbara County Board of Supervisors
- Santa Barbara Museum of Natural History
- Santa Barbara Wildlife Care Network
- Santa Barbara Zoo
- The Trust for Public Land
- Westmont Garden
- Wilderness Youth Project

*And many more!*

## FACULTY HIGHLIGHTS

MARIANNE ROBINS, PH.D.

Marianne Robins studies the Holocaust and co-advises the Environmental Studies minor.

AMANDA SPARKMAN, PH.D.

Amanda Sparkman studies the evolutionary ecology of reptiles and co-advises the Environmental Studies minor.

### *Other Faculty Include:*

- *Art:* Lisa DeBoer, Meagan Stirling
- *Biology:* Beth Horvath, Jeff Schloss
- *Chemistry:* Steve Contakes
- *Communication Studies:* Deborah Dunn, Elizabeth Gardner
- *English:* Paul Willis, Theresa Covich, Marilyn McEntyre (Westmont in San Francisco)
- *Kinesiology:* Cynthia Toms, Tim VanHaitsma
- *Physics:* Ben Carlson
- *Political Science:* Kate Bryant
- *Religious Studies:* Caryn Reeder, Sandy Richter
- *Sociology:* Blake Kent

## OFF-CAMPUS OPPORTUNITIES

- Au Sable Institute for Environmental Studies, *Michigan or Puget Sound*
- Creation Care Study Program, *New Zealand or Belize*
- Westmont in San Francisco
- Oregon Extension
