

# Ethnic Studies

**Curious about the racial and ethnic realities of America? Wondering how race and ethnicity plays out in the global contexts of migration and Christianity? Want to pursue racial justice, equity and healing in your community context?**

A minor in Ethnic Studies will equip you to understand the cultural, historical, political, religious, and social dimensions of a variety of racial and ethnic groups. This minor will help you explore how U.S. and global systems of power are rooted in racial and ethnic constructs, and equip you to grapple with the place of race within Christianity and the Christian church. Get trained in the knowledge and skills you need to lead faithfully in the pluralistic environment that is our contemporary world, and to work for social change that promotes justice and equity.
