WELCOME TO YOUR DENTAL PLAN!
This benefit summary outlines how your dental plan works and provides you with a quick reference of your dental plan benefits. For complete coverage details, please refer to your certificate of coverage.

Dental coverage you can count on
Your Anthem dental plan lets you visit any licensed dentist or specialist you want - with costs that are normally lower when you choose one within our large network.

Savings beyond your dental plan benefits - you get more for your money.
You pay our negotiated rate for covered services from in-network dentists even if you exceed your annual benefit maximum.

Choice of dentists
While your dental plan lets you choose any dentist, you may end up paying more for a service if you visit an out-of-network dentist.

Here’s why:
In-network dentists have agreed to payment rates for various services and cannot charge you more. On the other hand, out-of-network dentists don’t have a contract with us and are able to bill you for the difference between the total amount we allow to be paid for a service – called the “maximum allowed amount” – and the amount they usually charge for a service. When they bill you for this difference, it’s called “balance billing.”

How Anthem dental decides on maximum allowed amounts
For services from an out-of-network dentist, the maximum allowed amount is determined in one of the following ways:

- Out-of-network dental fee schedule/rate developed by Anthem, which may be updated based on such things as reimbursement amounts accepted by dentists contracted with our dental plans, or other industry cost and usage data
- Information provided by a third-party vendor that shows comparable costs for dental services
- In-network dentist fee schedule

Here’s an example of higher costs for out-of-network dental services
This is an example only. Your experience may be different, depending on your insurance plan, the services you receive and the dentist who provides the services.

Ted gets a crown from an out-of-network dentist, who charges $1,200 for the service and bills Anthem for that amount. Anthem’s maximum allowed amount for this dental service is $800. That means there will be a $400 difference, which the dentist can “balance bill” Ted.

Since Ted will also need to pay $400 coinsurance, the total he’ll pay the out-of-network dentist is $800.
Here’s the math:
- Dentist’s charge: $1,200
- Anthem’s maximum allowed amount: $800
- Anthem pays 50%: $400
- Ted pays 50% (coinsurance): $400
- Balance Ted owes the provider: $1,200 - $800 = $400
- Ted’s total cost: $400 coinsurance + $400 provider balance = $800

In the example, if Ted had gone to an in-network dentist, his cost would be only $400 for the coinsurance because he would not have been “balance billed” the $400 difference.
