

# Annual Assessment Report

**Department:** Mathematics and Computer Science

**Academic Year:** 2017 – 2018

**Date of Submission:** November 8, 2018

**Department Chair:** Russell W. Howell

## I. Response to the previous year PRC’s recommendations

|   |   |
|---|---|
| <b>Item:</b> Continue doing good assessment work  | <b>Response:</b> Thank you; we will try to do so.       |
| <b>Item:</b> In the future, collect the results of student learning over several years in order to construct a larger sample. The sample should be large enough and representative enough so that you can use the results with confidence to make decisions about student learning in the program | <b>Response:</b> The collection process is in progress. |
| <b>Item:</b>  | <b>Response:</b>  |
| <b>Item:</b>  | <b>Response:</b>  |
| <b>Notes:</b>   |   |

## II A. Program Learning Outcome (PLO) assessment

*If your department participated in the ILO assessment you may use this section to report on your student learning in relation to the assessed ILO. The assessment data can be requested from the Dean of Curriculum and Educational Effectiveness.*

|                                 |   |
|---------------------------------|---|
| <b>Program Learning Outcome</b> | <p><b>Creativity</b><br/>Students will demonstrate their creativity by formulating and making progress toward solving nonroutine mathematical problems.</p> <p>Comment:<br/>Problems and exercises that students encounter in mathematics courses typically give them practice applying material they are learning in the course and enable them to demonstrate their mastery of that material. As they mature as</p> |
|---------------------------------|---|

|   |  |
|---|--|
|   | mathematicians, our students are expected to demonstrate creativity and an ability to solve problems that require the creative application of ideas from a range of disciplines.   |
| <b>Who is in Charge /Involved?</b>  | Ray Rosentrater (teacher of MA 180) and the rest of the department (evaluating of presentations).  |
| <b><u>Direct Assessment Methods</u></b>   | Keep records of the work done in MA 180. Samples of the solutions will be preserved and a record of submissions to journals will be maintained.  |
| <b><u>Indirect Assessment Methods</u></b>   | Student presentations at conferences and other settings outside MA 180.  |
| <b>Major Findings</b>   | <ol style="list-style-type: none"> <li>1. From Fall 2009 to Spring 2018, 53 students attempted 103 problems from 5 different journals. Of these 103 attempts, 73 problems were solved, 44 of these solutions were submitted to the journals, and 7 of these solutions were published in the journals (see Appendix A).</li> <li>2. Put differently, about 71% of the problems attempted were solved, about 43% of the problems' solutions were submitted to the journal, and about 0.07% of the solutions were published in their respective journals.</li> <li>3. We are satisfied with the performance of our students in general. It should be noted, however, that the current senior class is an exceptionally strong one. By contrast, the sophomore level class (at this point at least) seems weaker.</li> </ol> |
| <b>Closing the Loop Activities</b>  | <ol style="list-style-type: none"> <li>1. Keep close track of students who enter their junior year.</li> <li>2. If progress seems below par for those students discuss what action might be taken to redress the situation.</li> </ol>   |
| <b>Collaboration and Communication</b>  |  |
| The department discussed the above outcomes and concur with the assessment and recommendations. |  |

or/and

## II B. Key Questions

|   |  |
|---|--|
| <b>Key Question</b>                       |  |
| <b>Who is in Charge/Involved?</b>         |  |
| <b><u>Direct Assessment Methods</u></b>   |  |
| <b><u>Indirect Assessment Methods</u></b> |  |
| <b>Major Findings</b>                     |  |
| <b>Recommendations</b>                    |  |
| <b>Collaboration and Communication</b>    |  |
|   |  |

### III. Follow-ups

|   |  |
|---|--|
| <b>Program Learning Outcome or Key Question</b> | Written and Oral Communication   |
| <b>Who was involved in implementation?</b>      | Ray Rosentrater, Russell Howell  |
| <b>What was decided or addressed?</b>           | We will monitor the two students who gave weak oral presentations to ensure that their presentation skills improve.  |
| <b>How were the recommendations</b>             | One of the two students was off campus all year; the second has been monitored closely in MA-108 and given almost daily presentations. The skills of that student are improving. |

|   |  |
|---|--|
| implemented?  |  |
| <p><b>Collaboration and Communication</b></p> <p>The department recently observed the one student speaking in a public setting. The student still lacks confidence and is shy about public speaking, but we are confident that more practice will lessen that characteristic.</p> |  |

**IV. Other assessment or Key Questions related projects**

|   |  |
|---|--|
| Project                                       |  |
| Who is in Charge /Involved?                   |  |
| Major Findings                                |  |
| Action  |  |
| <p><b>Collaboration and Communication</b></p> |  |

**V. Adjustments to the Multi-year Assessment Plan (optional)**

| Proposed adjustment | Rationale | Timing |
|---------------------|-----------|--------|
|                     |           |        |
|                     |           |        |

## VI. Appendix: Problem Solving Data

|   | Student          | Journal         | Prob. Number | Solved | Submitted | Solution Published |
|---|------------------|-----------------|--------------|--------|-----------|--------------------|
|   | Fall 2009        |                 |              |        |           |                    |
|   | David Montgomery | Math Horizons   | 234          | X      | X         | x                  |
|   | Daniel Mathis    | Math Horizons   | 235          | X      | X         | x                  |
