

Documentation of Attention-Deficit Disorder / Hyperactivity Disorder

One of your patients has notified the **Office of Disability Services (ODS)** at **Westmont College** of your recent evaluation/diagnosis and treatment of his/her ADHD.

This form is specifically designed for students whose <u>primary</u> diagnosis is ADHD. Do not complete this form if the primary diagnosis is not ADHD. Please contact ODS at 805-565-6186 to request the appropriate form. If the incorrect form is submitted, you will be asked to complete the appropriate form.

Students requesting services or accommodations through the Office of Disability Services are required to provide current documentation that must be completed by a provider that has provided treatment and or evaluation in the past 6 months. Documentation standards to determine legal eligibility may be more stringent than for usual clinical practice.

Please note:

All information that you provide will be shared with the patient. This information is kept confidential, and cannot be released without written consent from the patient.

<u>III.</u>	<u>Treatment</u>					
ls th	he patient currently in treatment with yo	ou? Yes	No			
If a	pplicable, does medication mitigate the mpletely Mitigated Partially Mitig	patient's sy	mptoms?			

Provide a list of medication(s), dosage, and side effects.
When were medications prescribed?
If applicable, do other treatments mitigate the patient's symptoms? Completely Mitigated Partially Mitigated Not Mitigated
Please list those treatments.

IV. Specific Symptoms and Severity

Please indicate specific DSM-5 ADHD symptoms and their severity levels (please place an X at the most appropriate severity level if known):

,	Symptoms	Unknown	No Impact	Minimal Impact	Moderate Impact	Severe Impact
Inatter	ntion					
a.	Often fails to give close attention to details or makes careless mistakes in school work, work, or other activities (e.g., overlooks or misses details, work is inaccurate).					
b.	Often has difficulty sustaining attention in tasks or activities (e.g., has difficulties remaining focused during lectures, conversations, or lengthy reading).					
C.	Often does not seem to listen when spoken to directly (e.g., mind seems elsewhere, even in the absence of any obvious distraction).					
d.	Often does not follow through on instructions and fails to finish schoolwork, chores, or duties in the workplace (e.g., starts tasks but quickly loses focus and is easily distracted).					
e.	Often has difficulty organizing tasks and activities (e.g., difficulty managing sequential tasks; difficulty keeping materials and belongings in order; messy, disorganized work; has poor time management; fails to meet deadlines).					
f.	Often avoids, dislikes, or is reluctant to engage in tasks that require sustained mental effort (e.g., school work or homework; for older adolescents and adults, preparing reports, completing forms, reviewing lengthy papers).					
g.	Often loses things necessary for tasks or activities (e.g., school materials, pencils, books tools, wallets, keys, paperwork, eyeglasses, mobile telephones)					
h.	Is often easily distracted by extraneous stimuli (for older adolescents and adults, may include unrelated thoughts).					
i.	Is often forgetful in daily activities (e.g., doing chores, running errands; for older adolescents and adults, returning calls, paying bills, keeping appointments).					

Hyperactivity and Impulsivity			
a. Often fidgets with hands or feet or squirms			
in seat			
b. Often leaves seat in classroom in other			
situations in which remaining seated is			
expected (e.g., leaves his or her place in the			
classroom, in the office or other workplace,			
or in other situations that require remaining			
in place).			
c. Often runs about or climbs excessively in			
situations in which it is inappropriate (NOTE:			
In adolescents or adults, may be limited to			
feeling restless).			
d. Often unable to play or engage in leisure			
activities quietly			
e. Is often "on the go" or often acts as if "driven by a motor" (e.g., is unable to be or			
uncomfortable being still for extended time,			
as in restaurants, meetings; may be experienced by other as being restless or			
difficult to keep up with).			
f. Often talks excessively			
g. Often blurts out answers before questions			
have been completed (e.g., completes			
people's sentences; cannot wait to turn in			
conversation).			
h. Often has difficulty waiting his or her turn			
(e.g., while waiting in line).			
i. Often interrupts or intrudes on others (e.g.,			
butts into conversations, games, or			
activities; may start using other people's			
things without asking or receiving			
permission; for adolescents and adults, may			
intrude into or take over what others are			
doing).			
Additional Symptoms:			
Poor short term memory			
Poor time management under pressure			
Difficulty starting tasks			
,			
Difficulty establishing routines			
,			
Depressed mood over difficulties ADHD			
,			
Anxious about school performance			
,			
Fatigue			
Difficulty regulating emotions

V. Additional Information

Please provide any additional information. We would appreciate information related to how
the patient's disability symptoms impact him/her in various academic tasks (e.g., exam
taking, focus in lectures, time management and organization, completion of long term
projects). Also, please include any information as to whether symptoms were observed and
self-reported.
